

Transfer of Territory

The Cincinnati Board of Education is opposed generally to transfer of territory from the school district, and the superintendent and clerk-treasurer are directed to take all necessary steps to assure that opposition may be taken to transfer proposals in accordance with decisions of the Board in each case. Any proposals to transfer territory to the school district will be reviewed at the time the proposals are officially initiated, including consideration of all legal implications and other pertinent factors, and actions will be taken as deemed appropriate in each case.
