

Recognition of Volunteers, Employees and Students

The Cincinnati Board of Education realizes that the success of its schools is the result of the hard work of many individuals: the work of many dedicated employees who have tremendous impact on the lives of students and the Greater Cincinnati community; the accomplishments of its students exhibited through academic achievement and other contributions to the quality of life in Cincinnati; and the tireless efforts of many parent and community volunteers who contribute countless hours and other resources to the school system.

The Board will recognize individuals or groups each month at a regularly scheduled Board of Education meeting - September through June. Employees, students, parent and community volunteers (individuals or groups) will be nominated and selected for this public recognition through a process developed and administered by the Office of the Superintendent.
