

Institutional Membership

The Board of Education may approve institutional memberships in organizations which provide services and information for educational purposes. Non-educational organizations may be approved for membership if they provide a specific service or information e.g., financial, business, medical, that is not available from an educational organization. Memberships for individuals will not be approved. The superintendent shall establish an administrative procedure for review and approval of requests for institutional memberships.

Approved: 9/17/85
Rescinded: 9/13/07
Reinstated: 11/7/07
