3517.1

Legal Action to Protect Property

It shall be the duty of any employee to use all means within his control to see that the school property and personnel are protected to the fullest extent of the law. Since the board of education, as a corporate entity, may not assume the responsibility for causing the arrest of one who has committed an offense on school property, said employee who witnesses the act must assume such responsibility.

The board of education will support its employees in the discharge of this duty to the fullest extent possible.
