Hello, Dater Families. Thank you for supporting the Library this year by donating your books to share with our students. The Library will continue to take donations of books next year. We do not have a budget to buy books.

Kindergarten students checkout books, listen to stories and illustrate their favorite part of the stories. We also learn parts of a book, do printing practice and color. The students go through a lot of markers. The wishlist of supplies for Kindergarten students are markers, crayons and construction paper.

The 6-9 level students complete typing lessons with Learning.com, check out books and complete various library and writing lessons. The wishlist of supplies for 6-9 are colored pencils and regular pencils.

The 9-12 level students have more complicated lesson plans. We do several research projects, Cyberbullying on Learning.com, checkout books, learn the basics of the Dewey decimal system, learn how to evaluate what they see and read online. These students will only need pencils. Many do not bring their pencil pouches to Library class.

This school year has been enjoyable. The students are funny, kind, willing to learn and smart. I have loved working with each one. Truly. Thank you for trusting Dater Montessori with your students. I am looking forward to the 2023-2024 school year.

Enjoy this special time with your children.
