

CPS ATHLETICS INTERN SPOTLIGHT

The newly-formed **ATHLETICS INTERNSHIP PROGRAM** has made great strides thus far in the 2016-17 school year. This group of young and talented individuals has formed together to assist 12 CPS high school athletic departments with game-day operations for all athletic events. Our interns have also provided help with anything else that each school's athletic director may need assistance with on a daily basis. In addition, every intern has supported our athletics office in planning and execution of events such as the Scholar-Athlete Leadership Conference. Moving forward, each and every one of the interns that have been brought on will contribute to the continued success and expansion of CPS athletics!
